

Implementation of Session Timeout for Mnaonline

Dear Valued Clients,

To enhance the security of the Mnaonline and protect sensitive trading activity, a **120-minute** session timeout will be implemented effective **March 17, 2025**.

For security reasons, the system will automatically log out users after 120 minutes of inactivity. Prior to automatic logout, a prompt will appear. Clicking "OK" will extend your trading session for an additional 120 minutes.

The screenshot displays the M&A Online trading platform interface. A modal dialog box is centered on the screen, displaying the text: "Your session will be expired on 30 seconds." Below the text are two buttons: "OK" and "Cancel". The background shows a quote screen with a table of stock data.
